

Project: PALM JUMEIRAH
City: DUBAI
Area: PALM JUMEIRAH - JUMEIRAH

Description

The Palm Jumeirah is the world's largest man-made island. It associates the dream of living on the beach, in the sunny weather and owning an exclusive property designed in all possible modern techniques. The Palm Jumeirah is in the shape of a palm tree. It consists of a trunk, a crown with 17 fronds, and a surrounding crescent island that forms an 11 kilometer-long breakwater and is 150 meters wide.

The island is 5.5 kilometers wide and goes deep into the sea by 6 kilometers. The crown is connected to the mainland by a 300-metre bridge. Over the next 2 to 3 years, as the tourism phases develop, The Palm Jumeirah is touted as soon to be one of the world's premier resorts. The Palm Jumeirah adds 120 Km to the coastline of Dubai.

The Palm Jumeirah is primarily a retreat and residential area for living, relaxation, and leisure. It will contain themed boutique hotels, three types of villas (Signature Villas, Garden Homes, and Town Homes), Shoreline, Golden Mile and Marina apartment buildings, beaches, marinas, restaurants, cafes and a variety of retail outlets.

Town homes will be on the intersection between the sides of the trunk and the beginning of the fronds. On the 17 fronds Garden Homes and Villas are emerging out of the sand and water. With the Atlantis Hotel on the farthest point of the island, and its several attractions like the fairy tale world, it will certainly be the hottest hotel in Dubai. You can reach it thru a tunnel from the end of the trunk.

With the beginning of the handover of shoreline apartments and villas, the demand, interest and the prices of properties on the Palm Jumeirah has increased tremendously. Indeed, Palm Jumeirah is coming to life as the first owners have already moved to their properties, defying all the bad rumours that haunted this project.

The dream of living by the sea and on the sea as well finally becomes a reality. To live here is to carry out a way of life granted to those who are sharp and adventurous, and thus your address at The Palm Jumeirah reflects your success, and will bring you respect and admiration in equal measurement. World famous celebrities, such as Formula 1 driver Ralf Schumacher and England's football captain David Beckham, have already bought villas - and did so even before the island was created.

Object: Trump Hotel, Golden Mile, Shoreline Apartments, Fairmont
Property Kind: Apartments, Penthouse, Office, Retail / Garden Homes und Signature Villa
Availability: 2006
Completion: 2006-2010
